Tableau [1]

Tableau is a business intelligence tool that helps people see and understand data.

With interactive data visualizations that can handle large amounts of data and robust analytics, Tableau helps organizations be more data-driven in their decisions. UIS provides an enterprise server platform to CU customers for direct data sharing use. The Tableau server is available on the UIS website, Cherwell and all applicable systems with additional authentication through PingFederate.

Use Cases

- PSC Enterprise Tableau Server [2]

Request access

Access permissions differ on whether a user will just be viewing Tableau-created data or is actively working within the system.

Public New Users

CU Tableau Public Site admins may use the Request a New User form [3] when they need a new user added to the CU Tableau public site. The form requires information about themselves and the new user. Questions should be directed to irmhelp@cu.edu [4].

Tableau Licenses

Contact your campus site administration [5] to purchase a Tableau desktop license.

Common users

- CU Procurement Service Center
- CU Boulder
- CU Denver
- CU Anschutz
- Health Compass

Trainings

New Tableau users are encourage to visit our Getting Started with Tableau at CU guide [6] (VPN access required). Skillsoft courses and training videos [7] are available to Tableau users.

All CU Tableau users are encouraged to join CU's Tableau User Group (TUG) to share knowledge, tips and tricks, and connect fellow users. Sign up for invitations to Tableau trainings and TUG webinars [8].
