

Project accountant name added to three reports ^[1]

December 8, 2016 by [Carl Sorenson](#) ^[2]

We have added PROJ ACCOUNTANT NAME as an optional column in three more Cognos m-Fin reports:

- m-Fin SPEEDTYPE ONE-LINER
- Project Reports > m-Fin PROJECT ONE-LINER
- Project Reports > m-Fin PROJECT SPEEDTYPE ONE-LINER

My thanks to CU Denver's Erin Tatman for this suggestion. Erin copies speedtypes from PeopleSoft journal entries that she has in MSEXcel and pastes them into m-Fin SPEEDTYPE ONE-LINER in order to confirm that there is appropriate funding for an expense to be posted. If she sees a concern on a project she usually contacts the project grant accountant.
