

Project billing type description and proposal id ^[1]

June 19, 2017 by [Carl Sorenson](#) ^[2]

Recently we added BILL TYPE to several of our reports project headers. Now we are adding a description for these cryptic 3-character codes. While we were at it we also added the project proposal id, a request from Boulder SPA.

The reports are available for you to try now in Cognos QA: **[in production now]**

1. m-Fin BAE BY MONTH - SUMMARY
2. m-Fin BALANCE SHEET SUMMARY
3. m-Fin EXPENDITURE TYPE SUMMARY
4. m-Fin OPERATING SUMMARY
5. m-Fin REVENUE AND EXPENDITURE SUMMARY
6. m-Fin TRIAL BALANCE SUMMARY

There is a known issue with m-Fin EXPENDITURE TYPE SUMMARY and m-Fin BAE BY MONTH - SUMMARY. If you have multiple pages of output, in HTML the Cognos page-down does not work. We are still looking for a solution to this problem. A work-around is to render the report to PDF.
