PET/Retroactive Funding Change (PETR)

Learn how to make retroactive funding changes during payroll expense transfer (PETR) transactions in the Human Resources Management System (HRMS).

General Payroll Expense Transfer (PET) Guidelines

- PET transactions can only be created when the HRMS is available to users; refer to the? [Payroll Production Calendars](#) [1].
- A PET does not pay additional money or collect money back from an employee. This process moves part or all of an existing payroll transaction to a different funding source.
- PETR is not available for Work-Study payroll transactions. Contact your financial aid/student employment office to request a FAM PET.
- PETR is not available for payroll transactions that have already been modified by a correction PET, ? FAM PET or Batch PET.
- PETR will not move Time Collection amounts that were processed with a SpeedType override.
