HRMS/System (PeopleSoft)

The University of Colorado's Employee Services team uses the PeopleSoft Human Resources Management System (HRMS) software to manage all system-wide personnel data and actions, including:

- appointment position and funding management;
- hiring;
- promotion and terminations;
- changes to employees' personal information;
- salary increases; and
- payroll production.

See the resources below, or browse the Employee Services website for additional information.
