

Carl Sorenson ^[1]

Financial & Reporting Systems - Associate Director of Reporting Systems

Carl is responsible for the advancement of CU's internal management financial reporting using CU's Cognos software. Carl works with OUC's Rosen Georgiev, developing and maintaining the set of reports known as m-Fin (management financial). m-Fin is used by departments throughout CU.

Carl can answer questions such as

- what reports will show the available balance for a speedtype?
- what reports will show how the available balance is calculated?
- what reports can span more than one fiscal year?

as well as more general questions about the direction of this reporting strategy, such as

what new functionality can m-Fin users expect in the future?
