

Reorg Table Update ^[1]

Effective Date: 12/05/2008

Purpose

The Reorg Table in the Finance System is used by the various campus controller's offices to identify FOPPS whose Orgs are changing. Entries made in the Reorg Table are handled as follows:

- Only the Org can be changed in the FOPPS. (To change other ChartField values in the FOPPS, contact the Office of University Controller.
- The old SpeedType may continue to be used with the newly reorg'd FOPPS...or a new SpeedType may be created for the new FOPPS.
- If the original SpeedType will be used for the new FOPPS, the system will create – and immediately inactivate – a new SpeedType for the old FOPPS
