Mandatory Plans

Pension/Savings - Mandatory

The University of Colorado offers three mandatory pension/savings plans to eligible employees. Each of the plans has distinct eligibility requirements.

- University of Colorado 401(a) Retirement Plan
- Public Employees' Retirement Association (PERA)
- Student Employee Retirement Plan (SERP)

PERA ^[2] MEMBERS ONLY ^[2] ? Members appointed into a position that is eligible for the University of Colorado 401(a) Retirement Plan and/or the University of Colorado 403(b) plans (collectively, the University Pension/Savings Plans) are required to make a one-time, irrevocable election to either participate in PERA or the University Pension/Savings Plans. Except in certain cases where you are no longer a PERA member upon being rehired by the university, this election will remain in effect throughout your career with the University of Colorado as long as you are employed or rehired in a faculty, officer or university staff appointment. If you elect to participate in PERA, you may still participate in the university's voluntary 403(b) plan. Employee Services will send you an election form with your deadline for election clearly stated. If your election form is not received by the deadline shown, you will be deemed to have irrevocably elected to participate with PERA.

University of Colorado 401(a) Retirement Plan

The CU 401(a) Retirement Plan is a qualified defined contribution plan under section 401(a) of the Internal Revenue Code. Individual accounts are set up for participants and benefits are based on the contributions credited to these accounts plus any investment earnings on the money in the account. Upon retirement, the member's account is used to provide retirement income. Investment risk and investment rewards are assumed by each individual/employee/retiree and not by the sponsor/employer.

Public Employees' Retirement Association (PERA)

PERA provides retirement and other benefits via a modified defined benefit plan. A defined benefit plan is a pension plan which promises a monthly benefit upon retirement which is predetermined by a formula based on the employee's earnings history, tenure of service, and age, rather than depending on investment returns. PERA members will not pay into Social Security but will still pay Medicare tax.

The voluntary pension/savings plans are defined contribution plans of an individual account which you set up to set aside money on a pre-tax basis through a salary reduction agreement with the university.
