Progress Report and Campus Feedback on System Administration's Efficiency Efforts from 2009-2013

February 13, 2014

In late 2012, the President's Task Force on Efficiency and the Office of Policy and Efficiency (OPE), in consultation with the System Vice Presidents and at the direction of President Bruce Benson, began an exercise to measure the effectiveness of System Administration's efficiency efforts since 2009 and to identify additional issues and opportunities for improvement relating to system administration.

This exercise included a broad stakeholder assessment survey and a series of campus outreach meetings. Click below for additional information:
