

Incident Procedure ^[1]

Work Related Injury or Illness

Colorado law requires, "If you are injured on the job, notify your employer as soon as you are able, and report your injury to your employer in writing within 10 days after the injury. If you do not report your injury promptly, you may still pursue a claim."

Timely completion and submission of a claim form to University Risk Management and a copy handed to your supervisor will suffice for notice.

Supported browsers are the following for submitting an Injury Report:
- Google Chrome (preferred) - Apple Safari - Microsoft Edge

[Employee's Injury Report Form](#) ^[2]

Get appropriate medical treatment as follows:

1. For an EMERGENCY call 911 or go to the closest urgent care facility or emergency room.
2. For a non-emergency or any follow-up medical care, you must seek treatment with a Designated Medical Provider (DMP) ^[3].
3. Establish contact with your supervisor or faculty sponsor/designee to:
 - Ensure they are aware of your injury/illness.
 - Report any time you have lost work because of the injury/illness.
 - Bring any medical reports you receive to these contacts so they have verification of your ability to return to work.
4. Follow instructions from the DMP regarding medications, restrictions and treatment.
5. Attend all medical appointments. If you have medical questions, discuss them with the DMP.
6. The assigned adjuster may or may not contact you regarding your claim. If you have additional questions or concerns contact the URM main office at 303-860-5682 or toll free at 888-812-9601.

Needlestick or Body Fluid Exposure

If you have had a needlestick or body fluid exposure, there may be coverage under workers' compensation. Please find your campus below and follow the outlined procedures for that campus and file a claim.
