

CFI (Composite Financial Index)

Scale is from -4 to 10.

3 = Adequate

5 = Vibrant

10 = Superb

The Composite Financial Index (CFI) is purely a financial measure of the University's health. Other factors such as enrollment, facilities, and academic reputation are also vital measures of the University's overall health.

The four-step methodology for calculating the CFI is as follows:

- 1) Values of four core ratios are computed.
- 2) These figures are converted to strength factors along a common scale.
- 3) Strength factors are then multiplied by the following weight factors:
 - Primary Reserve Ratio - 37.5%
 - Viability Ratio - 37.5%
 - Return on Net Assets Ratio - 20%
 - Net Operating Revenues Ratio - 5%
- 4) The resulting four numbers are totaled to reach the single CFI score.
