

Human Capital Management: Step-by-Step Guide

Uploading One Time Payment Files to CU Time

This guide describes how to upload files for One Time Payments to CU Time. If you have more than 10 entries, you may prefer this method over the manual method.

Approving Your Files for Inclusion to Payroll	13
When Will the System Process Entries?	18

Creating and Formatting Your Upload File

This section describes formatting your upload file. If your file is not formatted according to these specifications, you may experience errors. Refer to the *Building Uploads for Success* job aid on the HCM Community website for more information about the most common errors to avoid.

To create and format your upload file:

1. Create a CU One Time Payment file using Microsoft Excel and the template file available at <https://www.cu.edu/hcm-community/one-time-payments-template>.
2. Save the template file under a new name to your designated folder. Although the file eventually will need to be in CSV format for upload, save it in Excel workbook format while you are completing data; it will be easier to work with in Excel while formatting.

Required Fields: Off Cycle (must be Y or N), EmplID, Empl Rcd, Earns Begin Date, Earns End Date, EarnCode, and **either** Hours **or** Amount. (Do not complete both Hours and Amount fields.)

3. Format the columns of your file as follows:
 - **Off Cycle:** Values must be **Y** or **N** (all caps); do not leave blank.
 - **EmplID:** (Employee ID).
 - **Empl Rcd:** (Employee Record): Make sure it is correct for the job.

- **Earns Begin Date and Earns End Date:** The period when the pay was earned or the exception time accrued.
 - Earn dates must always be within a period when the employee was active according to Job Data. Dates outside active periods may not error during upload, but they will keep your entry from processing.
 - Note:** The system sees termination and other inactivation dates as the first date the job is inactive, so the earnings end date needs to be one day earlier.
 - Earn dates must be in *mm/dd/yyyy* format. See step 4 for instructions on formatting dates.
- **EarnCode:** (Earnings Code).
 - Be sure the **earnings code** (pay code) you use is in all caps.
 - Be sure the earnings code you use is allowed for the pay group (see table below). Your upload may not error for a mismatch, but will be an issue during payroll processing.
 - Only One Time Pay codes are allowed for One Time Payment entries/uploads. Others will error if used.

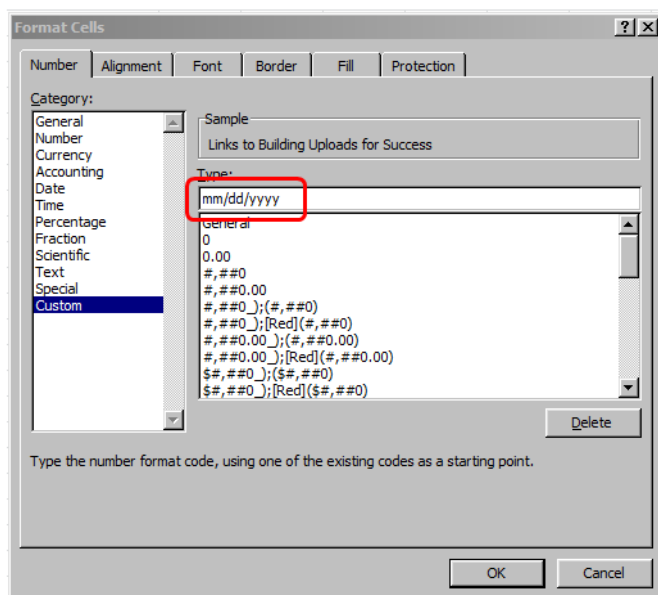

One Time Pay Codes -- use only on One Time Pay entries and uploads

Earn Code	Description	Monthly pay groups											Biweekly pay groups

Grey fill: Employee Services use only. DO NOT USE.																	

- **Hours or Amount:** Format with **two** decimal places and no 1000 Separator (,).

Warning: Do not enter both Hours and Amount on the same row. The file will upload, but will cause errors in payroll processing.

4. Be sure to reformat all dates using the *mm/dd/yyyy* format. CSV files do not retain this format, so you must verify that the date fields are formatted as follows for each file you create.
 - a. Select the column containing dates.
 - b. From the **Home** tab in Excel, click **Format** from the Cells group.
 - c. Click **Format Cells**.
 - d. From the **Category** list, select **Custom**.
 - e. In the **Type** box, type **mm/dd/yyyy**.

- f. Click **OK**.

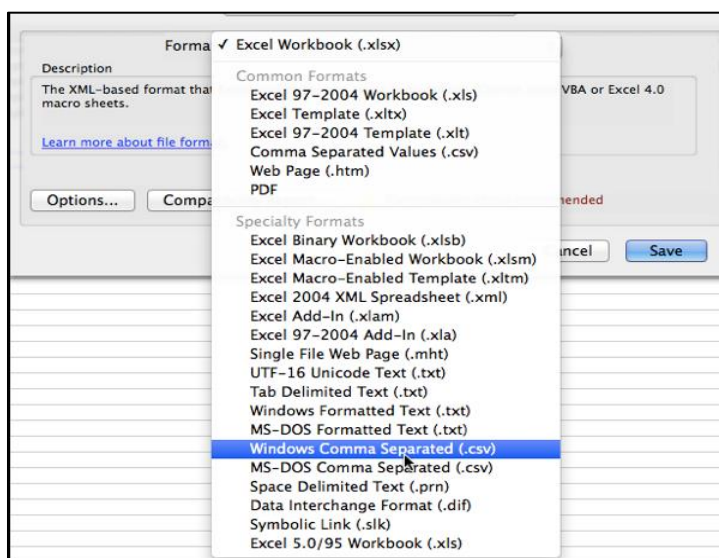

Best Practice: Create template files that will be needed for the semester that include employee IDs and the corresponding record numbers. Format the dates as described above and save as an Excel file. Then, for every new pay period, the only information that will need to be added will be the new beginning and end dates, number of hours, and any override information specific to that pay period. For ease of use, you may want to insert a column for employee names in your template. If so, save your file with a unique name and remove the name column before upload.

5. Remove all rows for which no Hours or Amount values were entered. These rows will cause errors during payroll processing.
6. Complete your data and recheck your formats as described above to be sure all entries are correctly formatted. Formatting errors will prevent the entry from loading or processing.

7. Save your file; first in Excel and then as a CSV file. Uploads **must** be in CSV format.
 - a. Click **Save As** (or press F12) to display the Save As window.
 - b. Choose a short file name. Using a unique 10-character name, if possible, will allow you to use the same name as your batch run ID (see below).
 - c. Under **Save as type**, choose **CSV (Comma delimited)**.

MAC Users: Save your file as Windows Comma Separated (.csv):

8. Click **Save**.
9. When you get the following message, click **Yes**.

Note: As shown below, you may have both Off Cycle statuses in one upload. You may also have more than one set of earnings dates. If you do use more than one set of dates in an upload, make note of the earliest earnings begin date and the latest earnings end date for later use.

10. When you attempt to close the file you will get the following message:

11. Click **Don't Save**. (Clicking Save will change the format of your already saved file.)

Uploading Your File

Once you have your file ready in CSV format, you can upload it.

1. Navigation: **NavBar> Navigator> CU Time> CU Processes> CU One Time Payments Load.**

2. If this is the first time you are uploading, you will need to create a Run Control ID using the **Add a New Value** tab. After your first upload you may re-use run control ID's, but if a file experiences errors and fails to load, you will need to create a new run control ID.

3. In the **Company** field, use the look up (magnifying glass) to choose the correct company (for all but retirees, this will be **CU**).
4. Create your own **Batch Run ID**, taking care to make it unique to you and the pay period (so that no one else, now or later, is likely to choose the same ID). You have up to 10 characters. Make note of the Batch Run ID for later use.

- Click the paper clip, displayed at the end of Attached File, and click **Choose File** to locate your CSV file.

- Select your file and click **Upload**. The system returns you to the CU One Time Pay Load page.
- Wait for the filename to appear in the **Attached File** field, and click the **Run** button.

The Process Scheduler Request page displays.

8. If the Server Name is blank, choose **PSUNX**, and click **OK**.

Process Scheduler Request

User ID BROW001918 Run Control ID Isb815

Server Name: [Dropdown Menu]
 Recurrence: PSCDB
 Time Zone: PSNT
 Process List: PSOS390, **PSUNX**, PSUNX2

Run Date: 10/28/2015
 Run Time: 3:15:22PM
 Reset to Current Date/Time

Select	Description	Process Name	Process Type	*Type	*Format	Distribution
<input checked="" type="checkbox"/>	CU Time Collection Process	CU_TIME_COLL	Application Engine	Web	TXT	Distribution

OK Cancel

The system returns you to the CU One Time Payments Load page. A Process Instance number appears in the top right corner of the page, which indicates that the process is running.

CU OneTime Payments load

Run Control ID Isb Report Manager Process Monitor **Run**
 Process Instance: 2109863

Process Request Parameters

*Company [CU] *Batch Run ID [MYDEPT0521]
 File must be comma separated (.csv), e.g. onetimed.csv
 *Attached File [MYDEPT0521.csv]

File Format

Line 1 is header row (Required).
 Data: Fields should be in the same order below. Required fields are in red. Optional fields in blue. (Optional fields still needs to be included in the file header, just leave those values blank if not applicable)
 OffCycle, Emplid, Empl_Rcd, Earns Begin Date, Earns End Date, EarnCode,
 Additional Pay Shift, Tax Periods, Tax Method, Benefit Deduction Override, Ben Ded Subset ID, General Deduction Override, Gen Ded Subset ID,
 SpeedType, Hours or Amounts

Save Return to Search Add Update/Display

9. Click **Process Monitor** at top right to display the Process List.

The screenshots show the 'Process Monitor' interface. The top screenshot shows the 'Run Status' as 'Processing' and 'Distribution Status' as 'N/A'. The bottom screenshot shows the 'Run Status' as 'Success' and 'Distribution Status' as 'Posted'. A large blue arrow points from the top screenshot to the bottom one, indicating the result of clicking the 'Refresh' button.

Select	Instance	Seq.	Process Type	Process Name	User	Run Date/Time	Run Status	Distribution Status	Details
<input type="checkbox"/>	2109863		Application Engine	CU_ONTMLDERN	BROW001918	04/04/2016 1:59:48PM MDT	Processing	N/A	Details
<input type="checkbox"/>	2109858		Application Engine	CU_REGEARNLD	BROW001918	04/04/2016 11:33:48AM MDT	Success	Posted	Details

10. Click **Refresh** at the top right until the **Run Status** displays as **Success** and **Distribution Status** displays as **Posted**, as shown above.

11. Next, review your upload files for errors. Click **Details** (circled below).

The screenshot shows the 'Process Monitor' interface with the 'Details' link circled in red for the process instance 2109911.

Select	Instance	Seq.	Process Type	Process Name	User	Run Date/Time	Run Status	Distribution Status	Details
<input type="checkbox"/>	2109911		Application Engine	CU_ONTMLDERN	BROW001918	04/10/2016 10:55:51AM MDT	Success	Posted	Details

Checking Your Upload Files and Correcting Errors

1. From Process Monitor, click **View Log/Trace**.

The screenshot shows the 'Process Detail' window for process instance 1940114. The process is 'CU_REGEARNLD' (CU Regular Earnings Load) with a status of 'Success'. The 'View Log/Trace' link is highlighted with a red circle in the 'Actions' section.

Process	
Instance	1940114
Name	CU_REGEARNLD
Run Status	Success
Type	Application Engine
Description	CU Regular Earnings Load
Distribution Status	Posted

Run	
Run Control ID	Isb
Location	Server
Server	PSUNX
Recurrence	

Date/Time	
Request Created On	11/23/2015 4:29:45PM MST
Run Anytime After	11/23/2015 4:29:43PM MST
Began Process At	11/23/2015 4:29:54PM MST
Ended Process At	11/23/2015 4:30:08PM MST

Actions	
Parameters	Transfer
Message Log	View Locks
Batch Timings	
View Log/Trace	

2. If you have a file that begins with your operator ID (the first four letters of your last name will begin it), open that file to see what entries the system received. Check the total number of entries against your original file. An Excel filename should appear on your screen. If not, your browser may have pop-up blockers enabled; disable them in order to view the file.

The screenshot shows the 'Process List' window with a 'View Log/Trace' window open. The 'View Log/Trace' window displays a 'File List' with columns for Name, File Size (bytes), and Datetime Created. A blue arrow points from the 'View Log/Trace' link in the first screenshot to the 'View Log/Trace' window in this screenshot.

Name	File Size (bytes)	Datetime Created
AE_CU_ONTMLDERN_2109911.log	2,590	04/10/2016 10:57:10 124782AM MDT
BROW001918201641010545MON_OTP_webinar_txt.csv	635	04/10/2016 10:57:10 124782AM MDT
OneTimePay_Errors_2109911.csv	575	04/10/2016 10:57:10 124782AM MDT
OneTimePay_Loaded_2109911.csv	483	04/10/2016 10:57:10 124782AM MDT
OneTimePay_Log_2109911.log	90	04/10/2016 10:57:10 124782AM MDT

- Click the **OneTimePay_Errors** filename. The icon for the file should appear at the bottom left of your screen. If an icon does not appear, check your browser's pop-up blocker and allow pop-ups.

The screenshot shows the HCM system interface. The main window displays a 'Process List' table with columns: Select, Instance, Seq, Process Type, Process Name, User, Run Date/Time, and Process Status. A 'View Log/Trace' pop-up window is open, showing details for process instance 2109911. The 'File List' section within the pop-up lists several files, including 'OneTimePay_Errors_2109911.csv'. A red arrow points from this file to the bottom left of the browser window, indicating where the file icon should appear.

- Click the icon; the file should open in Excel (as a CSV file).

	A	B	C	D	E	F	G
1	Off Cycle	Emplid	Empl_Rcd	Earns Beg	Earns End	OneTime/	Addition
2	*** ERROR : Earn code is not applicable to this employee						
3	N	100018	0	1/1/2016	#####	LEG	
4	*** ERROR : Non-existent employee record						
5	N	100018	1	1/1/2016	#####	INC	
6	*** ERROR : Earning code/upload type mismatch						
7	N	107372	0	2/1/2016	#####	REG	
8							

You will need to take steps to correct any errors listed here. In this example, the first error is because the employee's job is not eligible for LEG pay. The second error is because this employee has no employee record 1. The third error is because REG is a regular earnings code and will not upload with a One Time Payment upload.

Notes:

- Errored lines will not load to HCM. You will need to reload the corrected lines, or enter them directly through manual entry to CU Employee Reported Time. Reload only the corrected lines. Making corrections to your original file and uploading the file again will duplicate all of the rows that loaded successfully.
 - An error message may not describe the error. Most errors are due to formatting, mismatches with Job Data or use of an incorrect earnings code.
 - To determine the cause of an error, you may want to review your Excel workbook file and double-check the formatting, rather than the CSV upload file. Refer to the *Building Uploads for Success* job aid at <https://www.cu.edu/docs/jaid-building-uploads-success> for more information about the most common errors.
5. Click the **OneTimePay_Loaded** filename. Click the link to open the file. You should see all rows that loaded from the file. Check the total number of rows on this file to be sure that the total of errors and loaded rows agrees with your original file. Occasionally an error will not trigger a listing on the error report, but the entry will drop from the upload. This is the place to identify any rows that might have been dropped.
 6. Click the **OneTimePay_Log** filename. This file summarizes upload file processing. Verify that there are no errors and that all rows loaded. Paygroup rows loaded plus errors should equal the File Totals (bottom of report) and the total rows in your original file.

```
Begin

File Totals
-----
Total Valid Rows: 6
Rows in Error: 3
Rows Loaded: 3

End
```

Approving Your Files for Inclusion to Payroll

After verifying that the file loaded correctly, or fixing any errors and resubmitting, you will need to review your entries and approve them.

CU Mass Approve Reported Time allows you to manage your entries by your unique Batch Run ID. This is usually the most useful method for CSV uploads. This method lets you do the following:

- Approve the entire upload at once.
 - Deny the entire upload at once (useful if you have inadvertently uploaded a file twice).
 - Change the off-cycle status for the entire upload at once (useful if the upload missed an approval deadline for regular payroll and you now wish to include it in an off-cycle payroll).
1. Navigation: **NavBar> Navigator> CU Time> CU Mass Approve Reported Time.**
 2. In the **Company** field, type the company (usually **CU**).
 3. From the **Entry Type** dropdown, select **Regular Earnings**.
 4. In the date fields, type the earliest **Earnings Begin Date** and the latest **Earnings End Date** in your upload. (You may use dates you know are broad enough to cover all of your entries.)
 5. In the **Batch Run ID** field, type the ID you used for the upload.

6. Click **Search**.

<div> Select All Deselect All Flip to OffCycle </div> <div> <input type="button" value="Approve"/> <input type="button" value="Deny"/> </div>									

Note: Using the **Flip to OffCycle** option changes whatever status the entry row has to the other status; therefore, if you have both selected and unselected boxes in your upload and want all to have the same status, you will need to change the outliers (in the example above there are three) by going to the individual entries under CU Employee Reported Time.

- c. You may revisit this option and change off-cycle status or deny the entries at any time until the entries are sent to payroll.

Note: Once you deny entries, you cannot use Mass Approve to reverse them and will need to approve each entry individually.

CU Employee Reported Time allows you to review and change individual entries one at a time.

1. Navigation: **NavBar> Navigator> CU Time> CU Employee Reported Time**.
2. Enter the Employee ID and choose your entry from the resulting list – or enter more information to narrow your search.

CU Reported Time

Enter any information you have and click Search. Leave fields blank for a list of all values.

4. Review information as needed. If you want the entry to process in a regular payroll (monthly in this case), leave the off-cycle box unchecked. If you want it to be available for off-cycle payrolls as well as regular ones, check the off-cycle box. If you are allowed to approve your own entries, choose Approved from the Status dropdown menu. The Approver Name and Approval Time fields will immediately populate.

Approved
Denied

Note: After a record has been approved, subsequent changes can be made, but will not automatically remove the approval. Records may be denied or returned to a status of Needs Approval by clicking on an employee ID and using the dropdown menu in the Status field, and may be edited up until the time that the record is sent to payroll for processing. At that point the record is frozen and may not be edited further.

When Will the System Process Entries?

The processing of your entries depends on whether the off-cycle box is selected:

- **If the off-cycle box is not selected for your entries:** The system will wait to upload your data until the next regular payroll (monthly or biweekly depending on the pay group) where the Pay Period End (PPE) Date of that payroll is greater than or equal to the earnings end date of your entry.
- **If the off-cycle box is selected:** The system will process your data in the next regular payroll OR off-cycle payroll where the earnings end date of your entry is less than or equal to either of two dates – the PPE date of the payroll being run, or the PPE date of the last confirmed regular payroll for that pay group. This is important for monthly payroll entries that come too late for mid-month regular processing, but which should pay as nearly as possible to the regular monthly pay date. You may change the off-cycle status of any entry as long as it has not yet been sent to payroll.
- **PPE dates:** Consult CU pay calendars at <http://www.cu.edu/hcm-community/payroll-production-calendars>.

Pay Group	Description	Frequency
FRI	Faculty Recreation Instructors (BW)	Biweekly
STG	Student Faculty (BW)	Biweekly
STP	Stipends (BW)	Biweekly
