BOARD OF REGENTS

1   **13.   BUSINESS AND FINANCE**
2
3   **Policy 13.J: Artificial Intelligence Technologies**
4
5   The Board of Regents recognizes that artificial intelligence technologies ("AI"), including
6   generative artificial intelligence technologies ("genAI"), offer opportunities to advance teaching,
7   learning, research, and administration at the university. At the same time, AI presents ethical,
8   legal, and operational challenges. The university shall appropriately leverage AI while protecting
9   privacy, safeguarding security, and upholding transparency, fairness, and human oversight in
10   alignment with its mission and values.

11   Use of AI at the university shall comply with applicable laws, regulations, and policies, including,
12   but not limited to, those concerning data privacy, data governance, information technology
13   security, accessibility, intellectual property, and academic integrity. Further, the university shall
14   implement policy providing governance structures to promote responsible and secure use of AI,
15   including genAI.
