RE: Recommended Changes to Regent Policies 3.I

Proposed Revision to Regent Policy 3.I

Regent policy 3.I, currently titled “Compensation for Administrative Officers Returning to Any Faculty Positions,” would benefit from minor clean ups for the purposes of clarity. Recommended changes include:

1. Retitled policy to correct “Administrative Officers,” which is inconsistent with Regent Policy 3.B in which these positions are referenced as “Officers of the Administration.” The recommended update to the title is, “Compensation for Officers of the Administration Returning to Their Faculty Positions.”
2. The correction in #1 also applies to the first paragraph of the policy, which is updated accordingly.
3. The update to the last paragraph is to clarify language related to Officers of the Administration whose compensation includes both a faculty salary and an administrative stipend.

All of these changes are minor but important corrections for clarity and accuracy.
