

The CU Supplier Portal is an alternative to completing the CU W-9 form. It allows suppliers to:

- Manage supplier information, such as addresses, contacts, and diversity classification
- View the CU Sourcing website for solicitations
- Check the status of their invoices

For suppliers already in CU Marketplace, there's no need to invite them to register in the CU Supplier Portal. The Procurement Service Center (PSC) is working with existing suppliers to get them registered so they can take advantage of the CU Supplier Portal's benefits.

Not sure if you should invite a particular supplier? Use the flowchart, below, to find out.
