How to Use Bitlocker

PURPOSE:
• How to use Bitlocker

HOW TO USE BITLOCKER:

Bitlocker is enabled on all mobile Windows devices that belong to CU System’s office.

Step 1: Open your laptop
Step 2: Power on your laptop by pressing the power button.

Step 3: Wait for the device to power on.
Step 4: Wait for Bitlocker to prompt for a pin

Step 5: Type in your Bitlocker pin to access your computer. The pin should be the personal pin you created. If you need help getting in, please call the Service Desk for support.
Step 6: After you have entered your pin, press Enter and then you can access Windows.

If you require the pin be changed please alert the UIS Service Desk so we may assist.
