## COMPUTER HELP

In most situations, you will want to replace an existing device, but if you don't need to download old files you can select Add New Device.

If you choose Replace Existing, you will get this screen, and you will need to click Start.

# COMPUTER HELP

On this page select the device you are replacing, then click Continue. This will start the process of downloading the previously backed up files.

Once you get to this page, you are all set. The computer will either start downloading old files immediately, or start backing up immediately.
