Creating Sole Source Procurements in CU Marketplace

In This Guide

This guide discusses the sole source procurement process. Topics covered are:

- ✓ Sole source procurement definition
- ✓ Procedure to create sole source justifications
- ✓ Sole source process cycles
- ✓ Procedure to pay invoices (receiving)

What is sole source procurement?

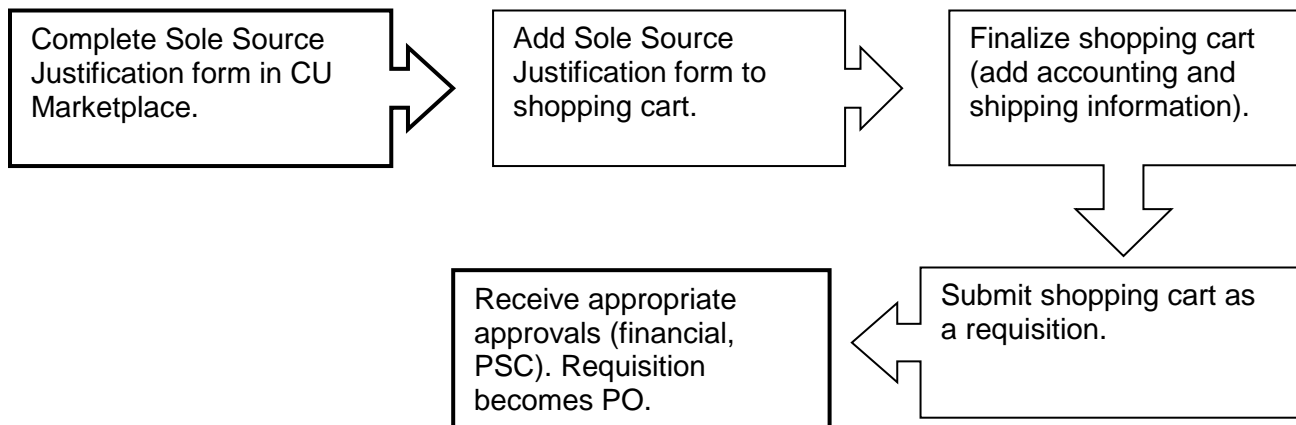

Sole source procurement means a purchase over \$5,000 made without competition, when competition is otherwise required. It is justified when there is only one good or service that can reasonably meet the need and there is only one supplier who can provide the good or service being requested.

Standing Purchase Order (SPO) Sole Sources

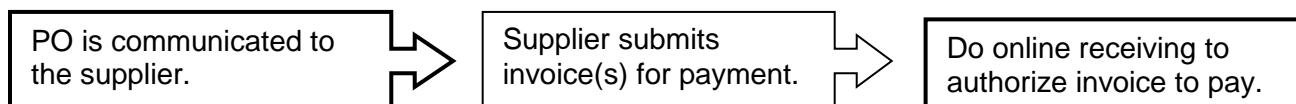

The SPO is a method of procurement used for repetitive purchases from non-catalog suppliers over a period of time, with a total anticipated cost greater than \$5,000. If you have an SPO sole source, refer to the Step-by-Step [Creating \(or Renewing\) SPOs in CU Marketplace](#) for further guidance.

Step-by-Step Guide

Creating Sole Source Procurements in CU Marketplace

2. A congratulatory message will appear, along with a summary of your requisition. CU Marketplace will send an email notification to the Approver(s).

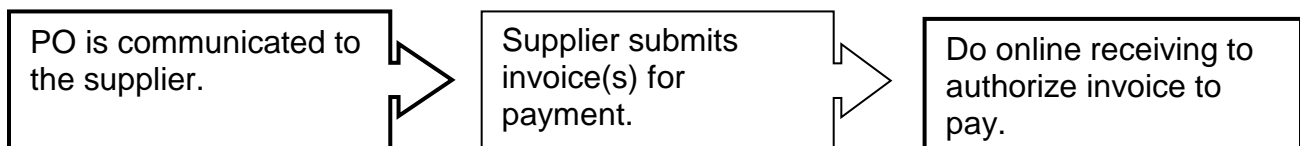

Step #5: Receive appropriate approvals

After the Requestor submits your shopping cart as a requisition, CU Marketplace routes your requisition for financial approval. Financial approval is given by an individual with a fiscal role on the SpeedType (except Officer) who is also a CU Marketplace Approver.

After financial approval is obtained, CU Marketplace routes your requisition for PSC approval. Once approved by the PSC, your requisition will convert into a PO. The Requestor will receive an email notification from CU Marketplace. Your PO is communicated to the supplier to place your order.

PO Payment Procedure

First, let's begin by reviewing the payment cycle illustrated on page 1:

Once your order is placed with a supplier, referencing your PO number, the supplier must submit an invoice to receive payment.

If the PO total amount is over \$5,000, online receiving is required to authorize each invoice to pay – regardless of the dollar amount of the individual invoice.

If you receive the invoice prior to the Procurement Service Center (PSC), email the invoice to APIInvoice@cu.edu.

An email notification is sent to the Requestor and any approvers once the invoice is entered as a voucher into CU Marketplace. You can then review the voucher online. The Requestor (or Receiver) should complete online receiving.

6. Click the **Complete** button located in the lower right corner of the page.
7. A confirmation page will appear noting the receipt and PO numbers.

In some cases, a supplier might send multiple shipments to fulfill one PO. For example, an item could be on backorder, or a large order might be shipped in multiple boxes which could be separated during shipping. Because of this, it is possible to perform receiving more than once on a given PO.
