Booking Trips in the Concur Travel & Expense System

What can be booked online using Concur Travel?

The Concur Travel & Expense System can be used to book airfare (domestic only), rental cars, and hotels for your university trips. It cannot be used to book your international airfare for university travel. This guide details booking travel in the main Concur environment – it is a very similar experience when [using the Concur Mobile app](#) to book travel on your mobile device.

You can always contact Christopherson Business Travel, the University's approved travel agency, to book your trip directly with a travel agent. (International airfare should be booked through Christopherson.) However, use of the Concur Travel & Expense System to book your domestic trip will result in a discounted travel agency fee.

Before you begin your online booking:

- Know your SpeedType – your airfare will be charged directly to this SpeedType.
- Verify your Concur Profile information is accurate; refer to the Step-by-Step Guide [Updating Your Profile in Concur](#) for guidance.
- In order to book a hotel using Concur Travel & Expense you must have already obtained your university Travel Card (application is found [here](#)).
