Suppliers: Registering in CU's Supplier Portal

In This Guide

Welcome to CU's Supplier Portal! This guide provides information and tips for each step of the registration process.

If you are an individual or sole proprietor, you may not be required to complete every step.

Registration Process

- 1. Before you begin, gather the needed information as outlined in the welcome message. This will make the registration process faster and easier!
- 2. Begin by creating your supplier account. Each supplier can have only one account, and only one login for that account.

Enter the required information – noted by an asterisk (*) – and click the **Create Account** button.

The portal saves your progress after each step, when you click the **Next** button. If you need to complete your registration at a later time, log into your supplier account to pick up where you left off.

- 3. The Welcome to Supplier Registration page appears. Review your Legal Company Name; this is the name entered, by your CU department contact, onto your portal invitation. Update to your company's actual legal name, if needed. Click the Next button.
- 4. The registration process has seven steps. If you are an individual or sole proprietor, you may not be required to complete every step.

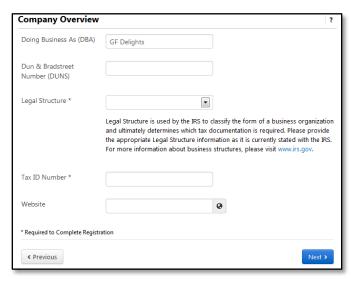

STEP #1: COMPANY OVERVIEW

Enter the required information, as noted by an asterisk (*):

- Legal Structure
- Tax ID Number

Additionally, if you do business using a name different from your legal name, enter that in the DBA field.
