 University of Colorado **2021 Campus & Workplace Culture Survey | About the CWC Survey** System Administration

What is the CWC Survey?

The University of Colorado system office launched the Campus and Workplace Culture (CWC) Survey fall of 2021, receiving 502 survey responses (89% response rate). The University of Colorado is committed to creating an inclusive environment where all members of our community feel respected, supported, and valued. The purpose of the Campus and Workplace Culture Survey is to gather information from CU students, staff, and faculty about their academic, workplace, and residential environments.

Diversity, equity, and inclusion are integral parts of the CU strategic plan and specific metrics will result from the initial survey and action plans developed post-survey. Progress will be monitored through metrics, action plans and future survey administration. We will use the results from this survey to better understand our existing culture and to identify both strengths and areas of concern in order to make recommendations for creating and sustaining a just, equitable, and inclusive culture at CU.

Demographics

What data is included?

Employee demography data are used to compare the survey population with the survey results. These data represent both employee record data (department, hire date, age, employee type, officer status) and self-reported identification (sex, race/ethnicity, veteran status, disability status, gender expression/identity, and political views).
