

Addressing Salesforce Bugs [1]

June 10, 2019 by [Melanie Jones](#) [2]

Salesforce bugs must be fixed by Salesforce. Learn how to navigate through the Salesforce Community to search for how-to's, share ideas, and report bugs. You can also Upvote Ideas to prioritize bug resolution.

How-To Address a Salesforce Bug

- **Login** to the [Salesforce Community](#) [3]
- **Search** your question for Answers and Ideas

The screenshot shows the Salesforce Trailblazer Community interface. At the top left is the Salesforce logo and the Trailblazer Community logo. A search bar at the top right contains the text 'campaigns'. Below the search bar is a navigation menu with links for Home, Answers, Help, Events, Collaboration, Ideas, and Featured G. The main content area is titled 'Results for 'campaigns''. On the left side, there is a filter menu with options: All, Find Answers (with a dropdown arrow), Connect & Collaborate (with a dropdown arrow), Enhance Salesforce (with a dropdown arrow), and Hire Someone (with a dropdown arrow). On the right side, there is a 'Questions' section displaying three search results. Each result includes a user profile picture, the question text, and the number of answers. The first question is 'How do I set up groups/links between disparate contact and accounts' with 4 answers. The second is 'can I update status of campaign members at the same time?' with 4 answers. The third is 'Syntax Error. Been working on this simple formula, but I am officially stuck! Any suggestions?' with 5 answers. At the bottom of the questions section is a 'View More (190)' link. Below the questions section is a 'Documentation' link.

Bring Back Sample Questions for Exam Guides on Trailhead

Trailhead

While I really like that exam guides are no longer a downloadable pdf, I miss the 5 sample questions at the end of the questions to get a better understanding of how prepared I am for the exam.

I would really love to have these sample questions back, maybe even as a trailhead quiz!?

Schedule Reports as Attachments and add Adobe PD

The schedule report feature is nice but it would be great to have a reports as an Adobe PDF attachment. I run reports to our Executi them in an PDF format. Also, sometimes I also need to schedule

- Ask fellow Salesforce Community members (eComm specialists & users) to **Upvote** your idea.

Anyone who has Upvoted the Idea will receive an email notification once it's resolved.
