

Cvent | How to setup payment information ^[1]

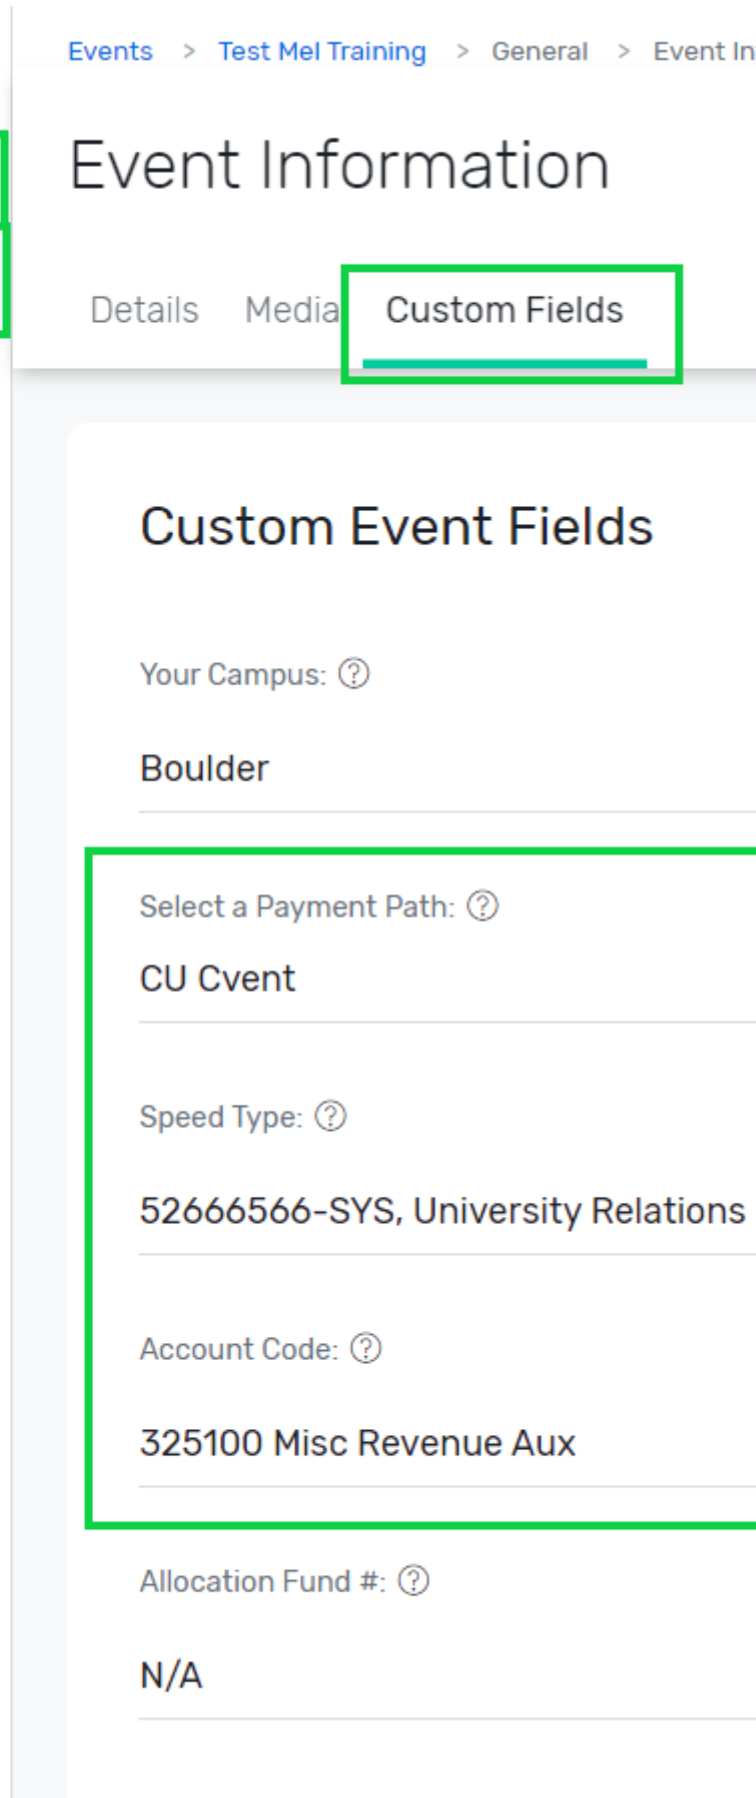

January 28, 2025 by [Melanie Jones](#) ^[2]

IMPORTANT Users cannot add new financial information to Cvent. They must submit a request for new details to be added to Cvent via their eComm Specialist. eComm Specialists should submit a ticket ^[3] to System eComm to complete this action.

1. Setup Custom Event Fields

The custom event fields ensure money collected in Cvent will make its way back to event planners ^[4]. To do this, we need your department's SpeedType and Account Code added to Cvent (via an eComm specialist). These details can then be added to your specific event during the initial event creation process or edited after:

- Under **General >> Event Information >> Custom Fields** tab
- Click the blue **Edit** button in the top right corner if you need to make changes.
- If collecting money, select **CU Cvent** OR **CU Foundation Cvent**.
- If you selected CU Cvent, choose your department's **SpeedType** and **Account Code**. If you selected CU Foundation Cvent, choose your department's **Designation Code** (Allocation Fund # was retired in Summer 2023 with the launch of CU Ascend).
- **Save** these details with the blue button in the top right corner.

2. Configure Registration Settings

- Expand **Registration** >> Click **Registration Settings**
- Scroll to the **Pricing** section >> select the **pencil icon**

Paying Online After Registration

You can allow [Paying Online After Registration](#) [5]. This option does not allow registrants to skip the payment section of their initial registration but will provide an opportunity for the registrant to resubmit payment if their original payment failed or switch their payment type if they originally planned to pay by check and now want to pay online with a credit card.

Never Process Payment at a Later Time or Allow Partial Payments

'[Process payment at a later time](#)' [6] and '[allow partial payments](#)' [7] should never be enabled to adhere to CU's standards for protecting cardholder information. There is no exception.

Optional Donations

Only designated Cvent fundraising event forms are permitted to collect optional donations. Event planners hosting non-fundraising events who want to encourage optional donations from event registrants should provide a link to the associated fund page on the [CU Foundation giving site](#) [8].
