NOTE People will only appear on the Abandoned Registrations list and report if they navigated to a page in the registration process, were idle on the page for 20 minutes, and didn't complete registration. After meeting this criterion, they will appear on the Abandoned Registrations list and report 40 minutes after going idle in the registration process. People who start registration and exit the registration process on their own (not by timing out) without completing registration will not show up on this list or report.
