

## Cvent Reporting Visibility <sup>[1]</sup>

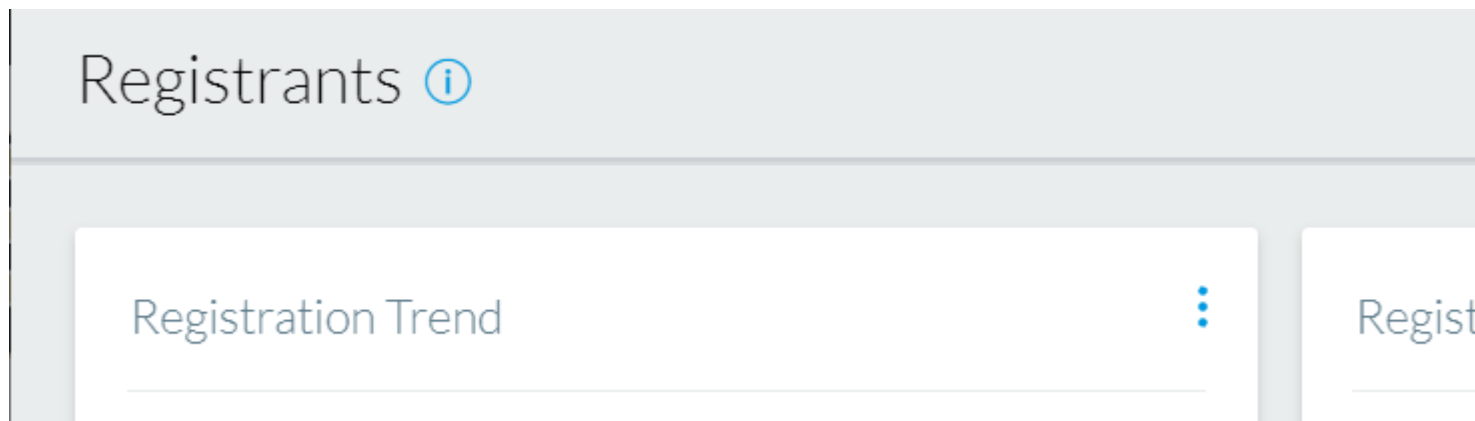

October 19, 2021 by [Melanie Jones](#) <sup>[2]</sup>

By default, any saved Cvent Report <sup>[3]</sup> is only accessible to the person who created it. Whoever created and saved the Report will need to expand the Report Visibility for anyone else to access it. This is important for two scenarios:

1. You wish to share a Report with another licensed Cvent user who you are collaborating on an event with. You'll need to not only share the event with them <sup>[4]</sup> but also share the Report Visibility (below).
2. You wish to share a Report with a free, Portal user. Your eComm specialist will need to help you complete this task <sup>[5]</sup>, but first, you must share the Report Visibility with your eComm specialist(s).

### Share Report Visibility While Saving

- First, **run a Report** <sup>[3]</sup>
- Hover **Actions** in the top right
- Click **Save As** in the dropdown

- **Name** the report and provide a **description**
- **Select the blue pencil** icon near **Visible to: Only me**

### Share Report Visibility for Already Saved Report

If you have already saved your Report, you can update the visibility later.

- Navigate to your event Report or Cross-Event Report
  - In this example, we opened an event, expanded the **Reports** section in the left navigation, then clicked **Reports**.
  - Next, we navigated to the **Saved Reports** tab.
- Click the **dropdown arrow** next to the Report's **Run** button
- Select **Edit Visibility** in the dropdown

Events > Mel testing new experience > Reports > Reports
