Cvent's Visual Refresh Project - Effective Feb. 27 [1]

February 28, 2018 by Melanie Jones [2]

Cvent is working towards refreshing the look/feel of the platform, especially in light of the major system enhancements that we are pushing out. This will help bring the same look/feel across all of Cvent's products. Below outlines the first phase of visual changes:

- Update to Global Font
- Updated Text and Color Styles to Solutions Dropdown
- Updated Text and Color Styles to Welcome / Help Menus
- Remove Gradient Fills to Move Application Towards Flat Color Scheme
- Update to Text and Color Styles to Main Navigation Menu

Video [3]

It is important to note that no functionality is changing, this is just visual enhancements only. The first round of changes are supposed to go into effect sometime on February 27th (today). I apologize that this is coming so late, I was just notified of the change and wanted to pass it along in case your users were concerned when they saw something different visually. To learn more, please watch this video [3].
