

Data Extension Sends ^[1]

November 3, 2017 by [\(not verified\)](#) ^[2]

If you need to send communications to internal audiences (faculty, staff or students) and want it delivered to their campus email addresses (eg; @colorado.edu, @ucdenver.edu, @cu.edu or @uccs.edu), you need to create a Data Extension. The tutorials below will walk you through how-to:

[Start a Data Extension](#) ^[3]

[Create a Data Extension](#) ^[4]
