

eComm Upgrade: Marketing Cloud Migration Complete ^[1]

January 23, 2019 by [jennifer.mortensen](#) ^[2]

After Marketing Cloud users were notified of a change to the planned migration process on Friday, January 18 ([view email and information](#) ^[3]), the System eComm team proceeded with the planned Marketing Cloud migration on January 22. The planned migration is now complete.

All Marketing Cloud content in every business unit is now located in the z_migration folder, and all new work should be completed in the z_migration folder as well.

A copy of the email notification sent to users alerting them of the completed migration is available below.

Marketing Cloud Content Migration Complete

The System eComm team has completed the Marketing Cloud [content migration](#) (review [last week's email](#)). **Your content is now located in the z_migration folder, and all new work should be completed in the z_migration folder as well.** Additional details are included below.

Where will I do my work and access my content?

After your content and folder hierarchy move, complete all future work in the z_migration folder. Do not create new content outside that location because it will not be transferred.

Just as the Content Builder folder acted as a "parent" folder for your content, the z_migration folder will now be the location of your folder hierarchy, emails,
