

Emailing Donors with eComm ^[1]

September 16, 2019 by [Melanie Jones](#) ^[2]

Advancement communications are intended to be sent through eComm - and there are processes in place to achieve this. In order to capture your desired audience, you will have to work with both Advancement Reporting and [your eComm specialist](#) ^[3]. Follow these four steps to reach your objective:

SOLICITATIONS Ensure your ecomm specialist notifies the [Central Advancement eComm team](#) ^[4] that you're planning to send an email to donors.

1 | Define Audience

Define your audience. This might include:

- First time donors
- \$5K+ donors

2 | Submit Request to Advancement

Submit a request for an EID (Advance ID) list, with the complete audience definition, to advancement.reporting@cu.edu ^[5]

IMPORTANT While physical mailing reports can be pulled through Advance, email addresses cannot. However, the Electronic Communications (eComm) Program is able to assist with email requests. They have a robust set of tools to ensure compliance to federal legislation like CAN-SPAM as well as branded template options and current email address information for CU constituents, including donors.

3 | Provide EID (Advance ID) List to eComm

Send the EID (Advance ID) list to [your eComm specialist](#) ^[3] with a request to create an email audience list. They have access to upload this list to Salesforce, which allows you to email the audience via Marketing Cloud.

Columns should include:

- First Name

- Last Name
- EID (Advance ID)

4 | Send Marketing Cloud Email

Send your Marketing Cloud email to the Report or Data Extension that your eComm specialist created.
