Access items sent to the Recycle Bin and restore them if needed. The Recycle Bin is a list view that lets you sort and filter items. This feature can only be accessed in Content Builder.

- Navigate to **Content Builder** in the home navigation and select **Content Builder** in the dropdown.

- Select the **Recycle Bin** tab.
- Click the **dropdown arrow** on the item.
- In the dropdown, select **Restore**.
- Items are restored to their original folders. If the folder no longer exists, you can't restore the item.
