

MEC Weekly Digest | May 10, 2022 ^[1]

May 10, 2022 by [jennifer.mortensen](#) ^[2]

May Last Login Report

- **Action:** The last login spreadsheet for May is ready for review. Please complete column E on the May 2022 tab by Friday, May 13.

Cvent Licenses

- **Update:** We are nearing our maximum number of Cvent licenses. If you anticipate more than a slight fluctuation in Cvent usage, please let us know.

Slow-Running Reports and Failed Sends

- **Issue:** Some of you have reported that sends to reports are occasionally failing due to slow report load times. Daniella Torres investigated a few examples from Tom Needy and found that simplifying report logic and/or removing unnecessary filters or columns will reduce loading times. An example is as follows:
 - A report that was calculating age was taking 5-6 minutes to run, but when the age calculation was removed, the report loaded in roughly 30 seconds.
- **Action:** If you notice that sends to reports are failing, please review and simplify your report logic. Alternatively, you can also send to a data extension if you are unable to modify your report. If you would like assistance in reviewing problematic reports, please let us know.

eComm Roadmap Next Steps

- **Update:** Thanks to all of you who shared your campus eComm priorities for FY23. We're currently reviewing the feedback you shared with Jeff Benn's team and hope to share a work proposal with you next week for further discussion and planning.

Outstanding Issues

- **Preferred Name:** Due to staffing changes on the integrations team, the preferred name work has been delayed. We now expect work to begin in mid-June. We will provide additional updates as they become available.

- **Q2 Email Preference Requests:** Work on Q2 email preferences and business is complete.

Updated Wiki

- Do Not Enable 'Process Payment at a Later Time' [3]

Ongoing Data Monitoring

- Data Issues Dashboard [4]
