The Dream Big Event Introduced Students to STEM [1]

January 7, 2016 by Natalie Barry [2]

CU-Boulder participated in the Dream Big Event for the Revere School District in Ovid, CO, an exciting event that was attended by Lt. Governor Joe Garcia, CU-Boulder Associate Dean for Research Scott Palo, and the CU Space Team. Four hundred students from surrounding school districts, 50 staff, and 50 Aerospace industry leaders participated in the October 14 event, along with several key Science, Technology, Engineering, and Mathematics (STEM) industry leaders and role models. The Dream Big Revere event was an opportunity for students to learn about aviation and aerospace, engage in hands-on learning activities, and information on aerospace and STEM careers.
