Senate Transportation Committee tours CU-Boulder Unmanned Aerial Systems Research Program [1]

March 19, 2015 by Natalie Barry [2]

On February 17, members of the Senate Transportation Committee visited CU-Boulder to learn about the Unmanned Aerial Systems research program. They spent time in the Fleming Indoor Flying Lab and visited with students who shared insights into their research. The visit demonstrated some of the great hands on work and research that CU-Boulder is doing to benefit the state and the exciting opportunities provided to students!
