Create, build and share content as a LinkedIn Learning curator [1]

March 10, 2021 by Employee Services [2]

A new LinkedIn Learning role allows users to become a curator.

As a curator, you can upload custom content and courses to LinkedIn Learning, compile learning paths to share with others and track analytics on who is viewing your content.

What is a Learning Path?

A Learning Path stores content in one place for other users to access. The path is compiled and completed in a sequential order to maximize effectiveness. For example, if you are creating a learning path about job hunting, a Learning Path organizes resume building content before interviewing skills.

Supervisors who become curators can create customized learning paths for employees' goals for the new performance cycle. This new tool can help take professional development to the next level in the age of digital savvy and remote learning.

To become a curator in LinkedIn Learning, email system.training@cu.edu [3] to get started.

Register for Rock Your Profile webinars

Join LinkedIn and Employee Services from noon - 1 p.m. or 2-3 p.m. April 13 for Rock Your Profile, an interactive learning experience that will give attendees tips and insights to make their LinkedIn profile stand out.

Each interactive session, led by a LinkedIn representative, will help you get noticed with a robust LinkedIn profile, connect with professional and industry leaders, allow you to share your unique perspective with others and discover new opportunities.

Whether you've never used LinkedIn before or want to get more out of it, you'll learn ways to successfully put your skills and expertise in the spotlight. You'll receive a setlist of best practices, tips and insights to help build an all-star LinkedIn profile.

- Register for noon – 1 p.m. April 13 session [4]

- Register for 2-3 p.m. April 13 session [5]
