Four queries will be consolidated by May 11 [1]

May 4, 2018 by Employee Services [2]

Employee Services is currently reviewing the HCM Query List to identify and consolidate queries with duplicated features. This process will be complete by **May 11**.

Which queries are undergoing changes?

Payroll Reg Sum w/ Paycard **(CUES_HCM_PAYROLL_REG_PAYCARD)** has been discontinued.

- The pay card flag that made this query unique has been added to Payroll Register Summary **(CUES_HCM_PAYROLL_REGISTER_SUM)**.
- Company, Total Deductions, Total Taxes and Net Pay fields have also been added to the Payroll Register Summary query results.

Employee Compensation **(CUES_HCM_EE_COMPENSATION)** will be removed.

- This query pulls data from the same tables as Payroll Register Acct Detail **(CUES_HCM_PAYROLL_REGISTER_DTL)**, but features less sophisticated row level security that results in seemingly missing employees.
- To ensure a smooth transition, Company, Reversed and Earnings End Date fields will be added to the Payroll Register Acct Detail query results.

Access these queries

To access these queries, follow this path: **HCM Community Users > HCM WorkCenter > Resources tab > HCM Queries (on the left-hand side of the screen)**. Choose **Query Manager** to search all queries or scroll to the bottom of the list and select **Click here for ALL**.

Review how to access and run queries by walking through this [3]step-by-step guide [4] or watching this webinar [5].
