HCM fix update for Dec. 13 [1]

December 13, 2016 by Employee Services [2]

The UIS and HCM System teams have been diligently working to resolve the following issues:

Attachments

The UIS team worked with Oracle until 11 p.m. to gain a better understanding of a potential solution to this problem and progress continues.

Please continue to refrain from attaching documents in HCM. This includes supporting documentation attachments as well as attachments of files that will be processed via upload.

Time approvals

The fix for the timesheet approvals failures is still being worked. Please refrain from approving timesheets until further notice.

Next updates

We apologize for any inconvenience and will continue sending follow-up messages as updates become available or every four hours, whichever comes first. Thank you for your patience.
