

HireRight outage affecting users' ability to connect to the system, E-Verify also experiencing outage ^[1]

August 25, 2017 by [Employee Services](#) ^[2]

HireRight is experiencing an issue where users are unable to connect to the system. Fixing this issue is our top priority and we are currently working on finding a resolution.

Additionally, E-Verify has notified HireRight that they are experiencing an outage. This will affect users' ability to order E-Verify requests until the problem is resolved. All pending and ordered items during this outage will be queued and automatically retried when the connection is restored.

An update will be sent when these issues have been resolved.

We apologize for any inconvenience. Thank you for your patience.
