

Issue identified with some recent position updates ^[1]

November 6, 2018 by [Employee Services](#) ^[2]

A code was recently migrated to synchronize approval and position workflows to fix issues with positions becoming stuck in HCM. It's been brought to our attention that position updates with the **Update Incumbent** box checked did not update the incumbent on job data.

We are working diligently to identify positions and job records affected, and will make manual changes to reflect these updates by the end of the week. If you have questions or concerns, please email hcm_community@cu.edu ^[3].

Thank you for your patience while this issue is being resolved.
