

Job aid provides users navigational paths, breadcrumbs through Fluid HCM ^[1]

June 16, 2017 by [Employee Services](#) ^[2]

The newly designed portal and Fluid version of HCM was released over the weekend. Since then, some users have reported problems knowing where they are within the new system when accessing their favorites, as breadcrumbs have been removed in the latest version of HCM.

We want all users to feel comfortable navigating the updated system, so we have released a job aid that provides paths (or breadcrumbs) to every page. Users will now be able to know where they are easily and save pages to their **HCM Favorites** menu for easy access.

Please note: Users do not have to access all pages shown in the job aid.

To view and download this job aid, [click here](#) ^[3].
