

My Leave fixes, new guides rolled out ^[1]

May 6, 2016 by [Employee Services](#) ^[2]

Yesterday we rolled out two fixes for My Leave: leave accrual displays and 9-80 flex option in My Leave Preferences.

Accrual displays

At this time, leave accruals should display correctly in the table above the My Leave calendar. If employees have questions about their accruals, please [show them this new job aid](#) ^[3] that walks through interpreting the My Leave table.

If balances are still incorrect, check the CU Leave Accrual Summary and make adjustments in CU Time using the **VAA** and **SCA** earnings codes.

9-80 option

We've also added a new 9-80 option in the Preferences dropdown menu. This means My Leave now accurately calculates leave and time for employees with flex schedules. Check out the revised [Setting Your Preferences in My Leave](#) ^[4] step-by-step guide to set this up.

With these fixes in place, we anticipate My Leave to work as expected.

Review the basics at upcoming My Leave webinar

Join us for a webinar Monday, May 16 to get a refresher on collecting time, uploading it to CU Time and training your department employees. [Register today](#) ^[5]!
