

New CU Funding Entry alert helps ensure new funding entries post successfully ^[1]

March 10, 2022 by [Employee Services](#) ^[2]

CU Funding Entries require row-level access to a position in order for approved HRGL Requests to post.

CU Funding Entries that update funding for a position may be entered by any user with row-level access to the position's department. Sometimes another user will review the transaction and click save/submit. If the user who clicks save/submit does not have row-level access to the position's department, the HRGL Request will never post.

To avoid confusion about whether an HRGL Request has posted and a new row successfully added to the department budget table, a message will display when a user does not have sufficient access to the department. This creates a hard stop. A user who does have row-level access should click save/submit so that the HRGL Request will complete and post.

Need extra help?

You can learn more about [funding entries](#) ^[3] on the HCM website. You can also email: hcm-community@cu.edu ^[4] or System.HRGL.Team@cu.edu ^[5].
