

## Ready for the Elevate Upgrade? How about your computer? <sup>[1]</sup>

June 19, 2015 by [\(not verified\)](#) <sup>[2]</sup>

*You may need to install new programs to support HCM upgrades.*

To help us make a seamless transition to HCM this fall, we need you to check if you have the correct browsers and applications configured on your desktop.

Read the [Supported Elevate Desktop Configurations page](#) <sup>[3]</sup> to review the required browsers and applications, and make sure they're installed on your computer. If not, your campus service desk can help you install the correct versions.

### **Important note on nVision and BI Publisher**

If your campus uses Office 365, **you must have the desktop version of Word and Excel installed to work with nVision and BI Publisher. Word and Excel for Mac will not support these applications.**

### **Questions?**

If you have any questions about the desktop configuration requirements, or the Elevate project in general, email [system.training@cu.edu](mailto:system.training@cu.edu) <sup>[4]</sup>.

[Elevate](#) <sup>[5]</sup>, [upgrade](#) <sup>[6]</sup>, [PeopleSoft](#) <sup>[7]</sup>
