

Short-term and long-term disability claims to be processed by Leave team ^[1]

January 28, 2025 by [Employee Services](#) ^[2]

Starting Feb. 1, the Employee Services Leave team will begin processing leave claims under the university's [long-term and short-term disability plans](#) ^[3].

The team was established when the University of Colorado's self-funded Family and Medical Leave Insurance (FAMLI) program began in 2024. The team processes all FAMLI, FMLA, and parental leave requests — more than 2,900 FAMLI cases in 2024 — and will now process claims for covered leave under CU long-term disability or short-term disability policies.

This change is intended to help streamline leave request processing that falls outside sick leave and vacation leave policies. Overall, most functions of these programs will remain the same, the only change will be to direct employees to contact the leave team to begin a disability coverage claim.

For faculty and university staff, long-term disability coverage is automatically provided, and employees must enroll in and pay for short-term disability. For classified staff, CU automatically provides short-term disability, and employees must enroll in and pay for long-term disability.
