System fixes and enhancements, April 16-20: I-9 label change, HCM User WorkCenter error message and more [1]

April 20, 2018 by Employee Services [2]

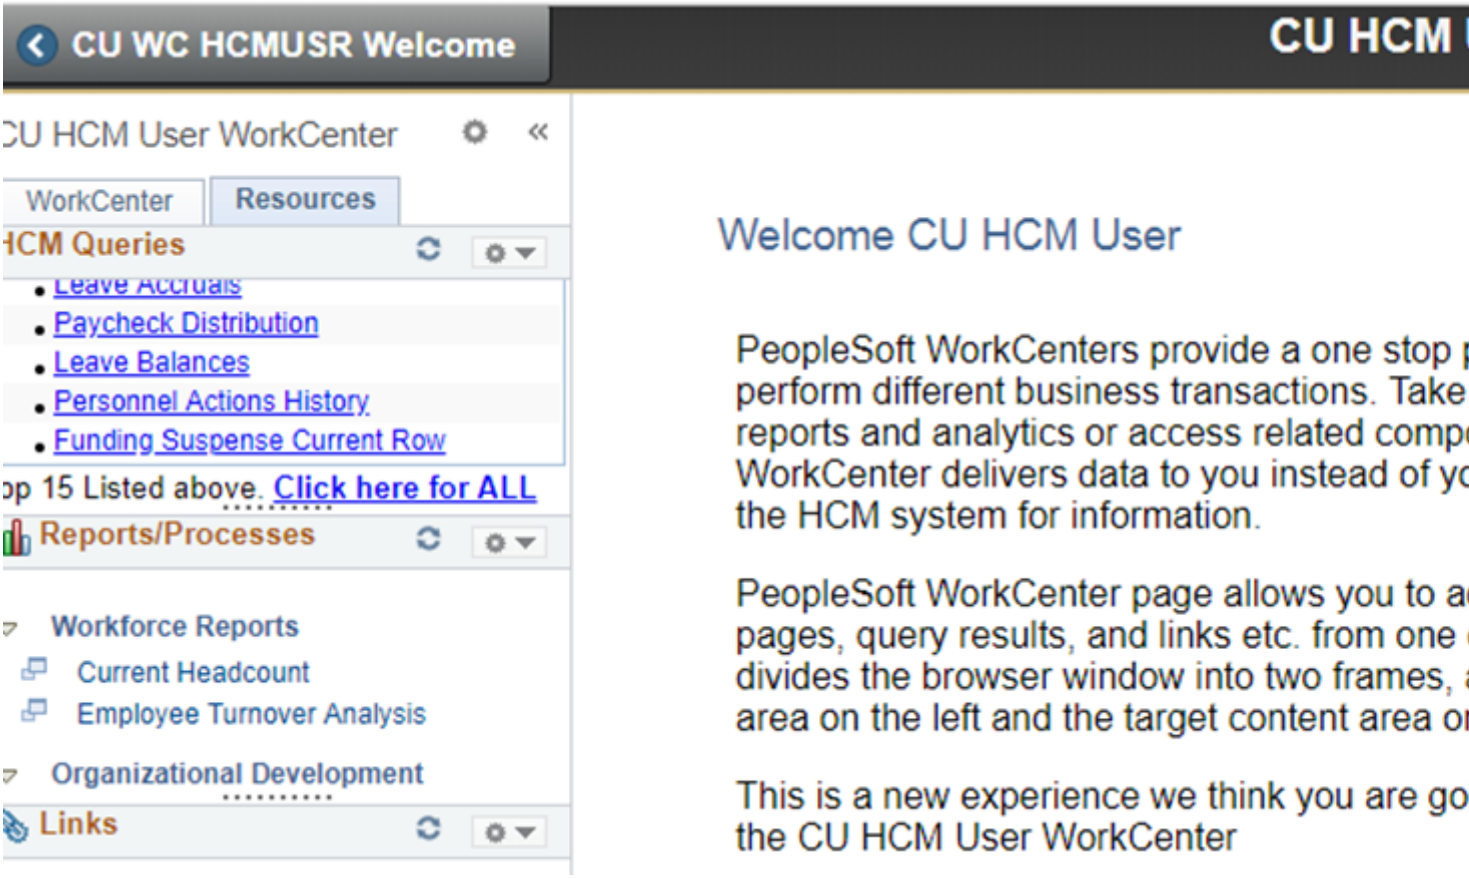

The following fixes affecting HCM were implemented this week:

- When users entered consecutive transactions, they saw the **Save and Submit** button when it should have been unavailable. This has been fixed.
- After the recent HCM upgrade, the **I-9 Completion Date** label changed to **I-9 Effective Date**. This will revert back to the original label, **I-9 Completion Date**.

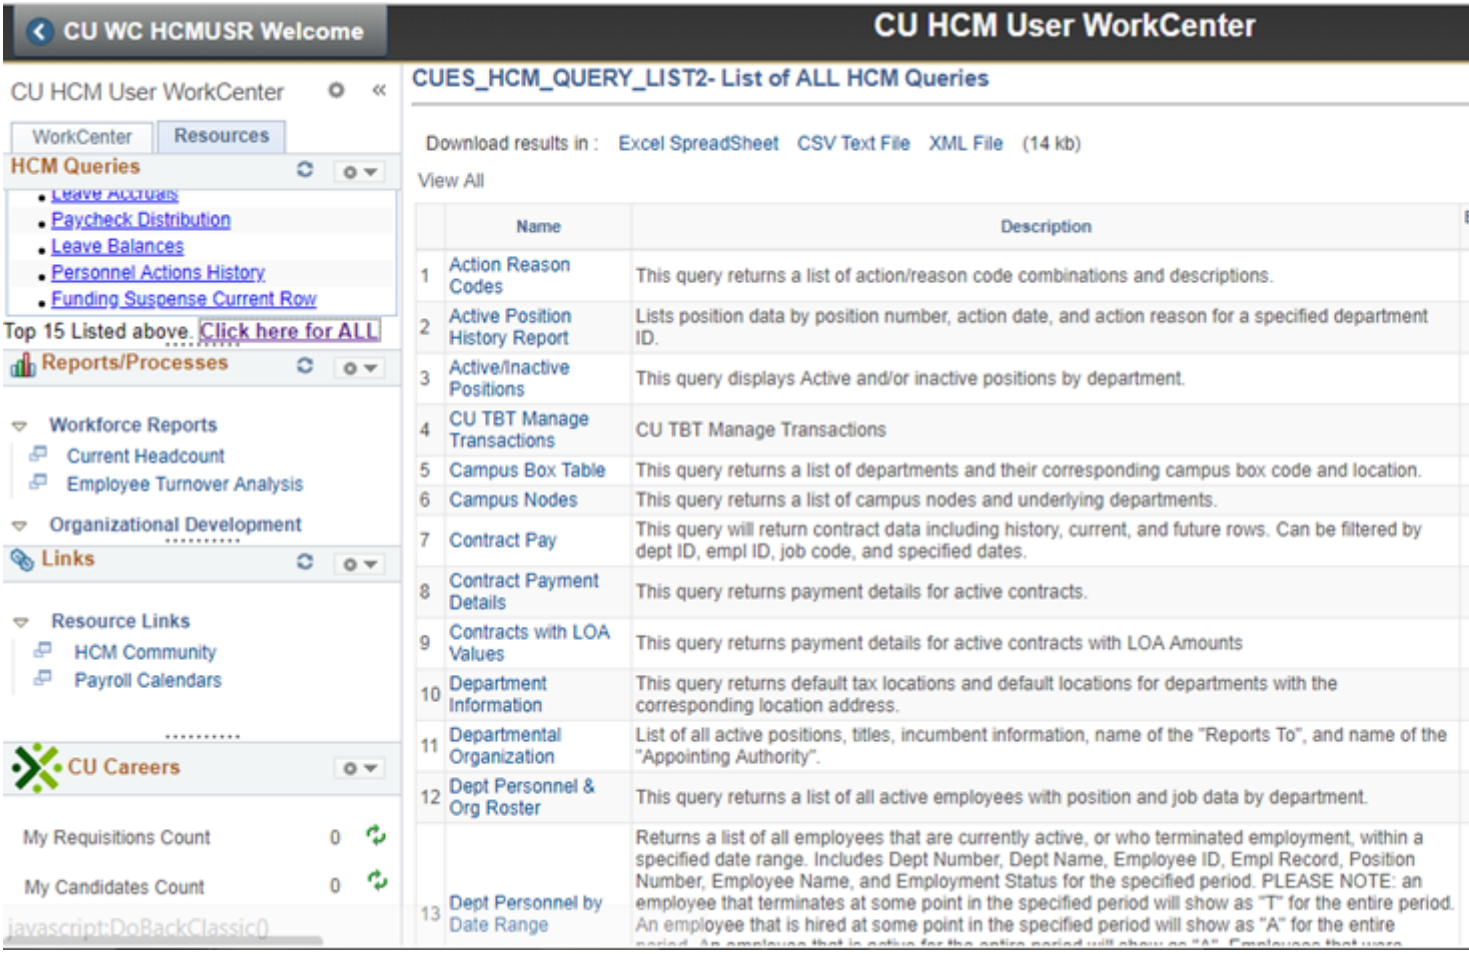

[3]

- An error was received when using the Navigator to pilot to the HCM User WorkCenter to view the full list of queries. A fix has been identified for this issue.
