

## **System Fixes and Enhancements, Sept. 18-22** <sup>[1]</sup>

September 22, 2017 by [Employee Services](#) <sup>[2]</sup>

The following fixes affecting Positions were implemented this week:

- Positions with an **Approved** status on Position Data were frozen in **Submitted** status in the database. A script was run to clean up these positions and move them into **Approved** status so the transactions could be completed.
- Position Data feeds to a custom CU cross-reference table. A fix was implemented so the cross-reference table is updated with the latest effective date from Position Data. This ensures positions are no longer stuck in submitted status.
