Each payroll cycle, funding for payroll is applied during post-processing. It creates accounting lines that are sent to the PeopleSoft Finance System (FIN) in a payroll journal. Payroll Expense Transfers (PETs), which are used to make payroll funding changes after payroll has processed, are sent to FIN in a single batch two times per day (with a few exceptions when other processes overlap).

Use HCM payroll queries to confirm payroll and PET details within HCM. These are available as soon as payroll or the PET is complete.

- **HCM Payroll Register Accounting Detail**: Returns payroll earnings and funding sources.
