Use these HR/GL payroll reporting tools to verify payroll funding [1]

October 9, 2022 by Employee Services [2]

Each payroll cycle, funding for payroll is applied during post-processing. It creates accounting lines that are sent to the PeopleSoft Finance System (FIN) in a payroll journal. Payroll Expense Transfers (PETs), which are used to make payroll funding changes after payroll has processed, are sent to FIN in a single batch two times per day (with a few exceptions when other processes overlap).

Use HCM payroll queries to confirm payroll and PET details within HCM. These are available as soon as payroll or the PET is complete.

- **HCM Payroll Register Accounting Detail:** Returns payroll earnings and funding sources.
- **HCM Paycheck Distribution:** Returns payroll earnings and employer-paid taxes and deductions and funding sources.
- Find PETs from the **CU PET and Funding** menu in the **HRGL General Search** feature.

Use mFIN reports to verify the HCM payroll data in CU-Data **the day after** payroll and PETs complete. Here are several CU Data mFIN reports to help you.

- **m-Fin Compensation Summary:** Returns the total compensation by employee for each position by month detailed by SpeedType, salary, benefits and PETs.
- **m-Fin Payroll Transactions:** Returns pay and benefits for an employee over a range of accounting periods. The final page displays the Compensation Summary.
- **m-Fin Outstanding Encumbrances:** Returns an itemized list of committed but not yet incurred payroll by SpeedType.
- **m-Fin Financial Detail:** Returns an itemized list of all transactions for a SpeedType which can be filtered for payroll account codes.
- **m-Fin SpeedType Summary:** Confirms the details of active SpeedTypes.
- **m-FIN Operating Summary:** Provides detail for projects including budget periods.
- **m-Fin Account Tree List:** Returns the hierarchy of account codes including those for payroll.
- **m-Fin PET:** Returns the details of a Payroll Expense Transfer (PET). You can search PETs by fiscal year, PET Operator, and PET Date.
- **Journal Entries:** PETs created before December 2015 are found using their own

individual PET journal ID.
