

User alert: PET submission errors ^[1]

April 26, 2016 by [Employee Services](#) ^[2]

Users have reported payroll expense transfer (PET) submission errors. At this time, while you may still create and save PETs, you will receive an error when you submit them for Workflow/Approval.

We are working to correct PET issues and will send a user alert when fixes are in place later this week. Please hold on creating new PETs until we resolve these errors. If you have a PET you were not able to submit for workflow, you will need to go back and resubmit it for approval.

Thank you for your continued patience.
