

User alert: transaction pages experiencing errors ^[1]

June 13, 2016 by [Employee and Information Services](#) ^[2]

Multiple users have reported errors when using transaction pages this afternoon. Employee Services and UIS are investigating the root cause of these errors.

We are asking users to refrain from entering transactions until we have determined the cause of these errors. There are no known workarounds at this time.

We will send a follow-up alert with additional information as it is available.
