

User alert: workflow issue identified for student transactions ^[1]

June 22, 2016 by [Employee and Information Services](#) ^[2]

Since yesterday's [implementation of new workflows](#) ^[3], we have received notifications that workflow is not functioning properly for student employee transactions.

Any transactions affected by this issue will be manually processed by our HCM Systems team until a fix can be identified. If you have transactions related to student workers, we ask that that you put them on hold, if possible.

Additional communication will be sent as we progress.
